PROFILE

My passion and profession are self-learning and learning new skills. I bring a solid understanding of core web technologies such as HTML, CSS, Javascript. My academic background and hands-on projects have equipped me with the ability to create responsive and visually appealing web interface.

PROFESSIONAL EXPERIENCE

Oct 2024 - Present

Internship Trainee - Aspire Systems (India) Private Limited

- Gained hands-on experience in problem-solving techniques using C and facilitating team collaboration.
- Sessions on JavaScript, HTML, CSS, and MySQL will be held, ensuring students grasp key programming concepts.
- Focused on improving communication skills, fostering clear and effective interactions.
- Developed techniques for responding thoughtfully and professionally in team environments, promoting constructive dialogue and collaboration.

PROJECTS

Aug 2024 - Aug 2024

Hospital Website (HTML , CSS) 🔗

- Developed a hospital website tailored for hospital operations and needs.
- Incorporated essential hospital forms into the website.
- The forms are well-designed and can be used for both online and offline tasks. This is a desktop-based website.

Weather app (HTML , CSS, Javascript) 🔗   **Sep 2024 - Sep 2024**

- Developed a Weather App to check current weather conditions. This app will be very useful for travelers.
- It provides accurate weather information for cities. The app is designed to be highly responsive and supports all devices.

Mobile Shope Website (HTML , CSS, Javascript) 🔗   **Sep 2024 - Oct 2024**

- Developed a mobile shop website for mobile sales and service.
- Designed a user-friendly and intuitive interface for ease of use.
- Implemented product addition functionality for easy product management.
- Ensured full responsiveness, compatible with all devices and screen sizes.
- Incorporated support for both mobile and desktop platforms for a wider reach.
